Sinking Fund—1% per annum of outstanding bonds, payable Oct. 1 for the purchase or redemption of these bonds at not over 105 and interest. Bonds so acquired to be kept alive and interest added.

Organization and Control—Incorporated in 1902 in New Jersey as a holding company and succeeded in 1913 by The Dallas Electric Co. The latter company assumed the obligations of predecessor company. In 1917 The Dallas Electric Railway Co. and the Dallas Power & Light Co. were organized to acquire, respectively, the railway and the electric light and power properties, covered by the lien of this mortgage. These companies are subsidiaries of the Southern Securities Co., a subsidiary of the Electric Bond & Share Co.

Security—Originally this issue was secured by a first collateral lien on the Street Railway system and the electric light and power plant in Dallas, Texas, through pledge of all the stocks (except qualifying shares), bonds and indebtedness of the following proprietary companies: The Dallas Consolidated Electric Street Railway Co., Rapid Transit Railway Co., Metropolitan Street Railway Co. and Dallas Electric Light & Power Co.

Substitution of Collateral and Subordination of Lien—In Sept., 1917, the following securities were substituted by the Old Colony Trust Co., as Trustee, viz.:

$4,999,700 (par value) Capital Stock of the Southern Securities Co. and a 6% note of the latter company, dated Sept. 29, 1917, for $3,500,000 and which is secured by the following collateral, viz.:

Dallas Ry. Co. Com. Stock	$2,247,900
Dallas Ry. Co. Pfd. Stock	500,000
Dallas Ry. Co. 6% Bearer Note	2,600,000
Dallas Power & Light Co. Stock	666,667
Dallas Power & Light Co. 6% Bearer Note	1,333,333

Also by pledge of a 6% Note of Harry M. Durning, payable April 1, 1922, for $3,213,334, and which is secured by the following collateral, viz.:

Dallas Power & Light Co. Stock	$1,331,233
Dallas Power & Light Co. Bearer Note	2,666,667

The above substitution was made under the discretionary powers of the trustee for the following reasons:

"Although the various franchises would expire within a few years, the only renewals obtainable by the companies from the City of Dallas were upon terms which could not be accepted without loss to the company's security holders. New franchises, however, involving reorganization of the corporations themselves, could be obtained upon terms believed to be fair, but it was necessary to accept and to operate under them before September 27, 1917. The proposed new street railway franchise involved the expenditure of $1,000,000 for improvements; and the proposed new lighting company franchise the sum of $2,000,000 for improvements. It was represented by the company that securities other than first mortgage bonds could not be sold to raise the money called for by the franchise requirements.

"To enable the company to acquire the franchises and to raise the necessary funds, a plan of reorganization was proposed, in which plan, after investigation and advice, the Trustee joined, acting under authority given it by the mortgage."

Prior Liens—$1,000,000 ($2,200,000 authorized) Dallas Power & Light Co. 1st 7s, due 1920. As of March 1, 1918, no mortgage had been placed on the railway properties.

Organization—Incorporated in Michigan, Dec., 1900, and took over the franchises and property of the Detroit Citizens' Street Ry. Co., Detroit Electric Ry. Co., Detroit, Ft. Wayne & Bell Isle Ry. Co. and the Detroit Suburban Ry. Co., embracing practically all the street railway lines in the city of Detroit. Also acquired by purchase the properties of the Detroit & Northwestern Ry. Co. (Orchard Lake Div.,) the Detroit & Pontiac Ry. Co. (Pontiac Div.,) the Wyandotte & Detroit River Ry. Co. (Wyandotte Div.) and the Detroit & Flint Ry. Co., formerly the Detroit, Rochester, Romeo & Lake Orion Ry. (Flint Div.). Also owns the entire capital stocks of the Detroit & Port Huron Shore Line Ry. Co. (Rapid Ry. Div.), Sandwich Windsor & Amherstburg Ry., Detroit, Monroe, Toledo Short Line Ry. Co. and the Detroit, Jackson & Chicago Ry. Co.

Since 1909, when many of its important franchises expired, the company and the city have been endeavoring to come to some agreement for the future operation of the company. In 1915 the city submitted a proposition to the company whereby the city would "assume" the $24,900,000 bonds, which are a direct obligation of the Detroit United Ry. Co. in payment for the 222 miles of road operated by the company within the city limits. The directors of the company have approved this plan, and it was submitted to the stockholders who approved on March 31. Nov. 2, 1915, the proopsed purchase by city was rejected by voters.

As of April, 1921, the city was constructed a municipal system and the company had abandoned all opposition to the city taking over the day-to-day lines.

In March, 1918, agreement was reached between company and city officials for purchase of properties within city limits for $31,500,-

000, but this was defeated at the polls April 7, 1919.

Also secured by a first mortgage on the new Colfax Power Plant, the construction of which with an initial installed capacity of 60,000 K. W. is to be partly financed from the proceeds of this issue.

The property covered by the first mortgage includes one of the largest and most important electric power plants in the country (Brunot Island, 120,000 K. W.), the new Colfax Power Plant (initial installed capacity to be 60,000 K. W.) and extensive transmission and distribution lines.

Prior Liens — $2,829,500 bonds of leased and subsidiary companies outstanding with public. Additional bonds of leased and subsidiary companies are outstanding to the amount of $1,720,000 face value, of which $550,500 are pledged under the mortgage securing this issue, $169,500 are deposited under a subsidiary company mortgage, and $1,000,000 are pledged under the respective indentures securing the Philadelphia Company's First and Collateral Trust 5s, due 1949, and Consolidated and Collateral Trust 5s, due 1951. The Duquesne Light Company has purchased the last mentioned $1,000,000 bonds, subject to their delivery from under the liens of said Philadelphia Company mortgages. All the foregoing $1,720,000 face value bonds are non-interest bearing from the standpoint of the Duquesne Light Company System.

Charlton, trustees as provided in chapter one hundred eighty-eight of the special acts of nineteen eighteen of the Commonwealth of Massachusetts, do hereby as such trustees and not in our individual capacity, pursuant to the authority conferred upon us by section nine of the said act, agree with the holder of the within bond that if the earnings of Eastern Massachusetts Street Railway Company, otherwise applicable to dividends, are not sufficient to pay the within bond as it matures, we will make up the deficiency out of funds made available for the purpose under the provisions of section ten of the said chapter."

Organization—Incorporated in Massachusetts pursuant to the terms of a special act of the Legislature (Chapter 188, Special Acts of 1918) to acquire substantially all the assets of the Bay State Street Railway Company.

The Special Act, among other things, further provides:

(1) That the new Company shall be managed for ten years by five Trustees to be appointed by the Governor of Massachusetts. The Governor has appointed as such Trustees for the first five years:

Homer Loring, Chairman,
Arthur G. Wadleigh,
Fred J. Crowley,
Isaac Sprague,
Earle P. Charlton.

(2) That the Trustees shall have absolute power to fix rates and fares (free from the jurisdiction of the Public Service Commission or any other authority) so as to produce income sufficient to pay all costs of operation (including taxes, maintenance and depreciation) and a return on the investment sufficient to cover all interest requirements, the stated dividends on the preferred stocks and 6% per annum on the common stock of the new Company.

Based upon the Public Service Commission's appraisal of $40,282,340 in its decision of August 31, 1916, plus subsequent additions the property valuation will be about $46,000,000, 6% on which, or $2,760,000, is the approximate amount of the permitted initial annual return on the investment, as against about $1,464,535 initial annual requirements for interest charges of the new Company and for rentals of all leased lines in Massachusetts.

In addition to which he has stated that two-thirds of the area contains an upper seam which should yield at least 12,000,000 tons, giving a total yield of upward of 43,000,000 tons of recoverable coal. (Texas), Empire Gasoline Co., Empire Petroleum Co. and Empire Gas & Pipeline Co., which companies joined in the execution of the Note Indenture and also the mortgage securing the Bonds pledged hereunder as collateral consisting of $50,000,000 Empire Gas & Fuel Co. First and Refunding Mortgage and Collateral Trust Sinking Fund 6% Bonds dated June 16, 1919, and maturing June 15, 1939.

The bonds pledged as collateral are part of an issue of $150,000,000 of which $18,774,000 is reserved for retirement of the underlying divisional bonds; $30,000,000 may be issued for proper corporate purposes; and the remaining bonds may become outstanding during the life of these notes at the rate only of $50 in Bonds for each $100 additional expenditure for capital account.

The Mortgage securing these Bonds provides that the company must either use 50% of the gross receipts from the sale of crude oil for the redemption of bonds, or expend for capital account in the various properties 75% of such receipts. The company may anticipate either of these requirements and may also deposit either cash, or bonds of the authorized issue at par in the satisfaction of such sinking fund requirements. The mortgage includes an amortization provision which in any event will retire all of the bonds at maturity.

Under the provisions of the Note Indenture the company may withdraw collateral to the

extent of $1,500 principal amount of Bonds for each $1,000 principal amount of all Notes redeemed until the ratio of Bonds collateral to Notes outstanding will be three to one, which ratio of collateral will thereafter be maintained.

The company, directly through constituent companies, manufactures a complete line of lubricating and signal oils and greases for steam and electric railway services, and for autoombiles and stationary plants.

The company in 1918 acquired extensive oil-fields and refinery properties in Texas, resulting in the organization of the Galena-Signal Oil Company of Texas, the entire capital stock of which is owned by this company.

These properties include about forty wells in the Humble (Texas) oil field, producing a Napthene base oil, from which lubricating oils of unusual excellence are obtained.

At Houston, Texas, accesible to its refinery on the Houston Ship Channel, the company owns a large tank farm, consisting of 48 steel storage tanks, with a gross capacity of over 2,500,000 barrels.

The main pipe line owned by the Galena Pipe Line Company of Texas consists of about 24 miles of 6-inch pipe, with right of way, and necesasry gathering lines. It connects the producing properties with the tank farm, the refinery, the Norsworthy terminal, and the Houston Ship Channel. The entire capital stock of the Galena Pipe Line Company is owned by the Galena-Signal Oil Company of Texas.

At Norsworthy, Texas, on the Houston Ship Channel, for the purpose of facilitating its domestic and foreign trade, the company owns, in addition to the improved terminal facilities at the refinery, 80 acres of terminal property, with dock tanks, pump house and equipment, accesisble to ocean-going steamers.

At Bayway, N. J., terminal (New York Harbor), the company has recently made extensive improvements to its plant, consisting of dredging the waterfront to a depth of 25 feet, constructing a new bulkhead and additional steel storage tanks of large capacity.

The Galena refinery is located on a tract of approximately 550 acres of land, situated on the Houston Ship Channel, about ten miles from the City of Houston. The refinery is classed as one of the most modern and best equipped in the United States, having a present capacity of 3,000 barrels (lubricating rating) of crude oil daily.

A 4-000-ton tank steamship was completed in January 1921 for the Galena Navigation Company. This steamship operates between the Company's terminal at Houston, Texas, and Bayway, N. J., and may be used in the transportation of the Company's products abroad.

The properties owned by the Galena companies include compounding plants at Franklin, Penn.; Bayway, N. J.; Whiting, Ind., and Toronto, Can.

The Company owns or maintains storage and distributing warehouses at convenient points throughout the United States, Europe, Canada and Central and South America.

Secured by a first mortgage on 32.66 miles of road from Cuba Jct. to Hunts, N. Y. This line lengthens the through route of the Erie R. Because of this practically all through freight passes over this line.

Secured by a first mortgage on all the property of the company. The property of the company includes 5 hydro-electric developments at various points on the Snake River, in southeastern Idaho and eastern Oregon, of which four are interconnected by transmission lines and two hydro-electric plants on the Malad and Payette Rivers (tribuataries of the Snake River) with a combined generating capacity of 39,540 k. w. The company also leases two other hydro-electric plants—one the property of the Boise Irrigation Project which was installed by the Federal Reclamation Service in connection with the Arrow Rock Dam. The leased plants have a combined capacity of 2,775 k. w. The company's transmission lines aggregate 1,139 miles. The company without competition serves with electric light and power the Snake River plains, extending across southern Idaho and eastern Oregon and embracing a population estimated at 150,000. The territory served includes the cities of Boise, Pocatello and Twin Falls and practically every other important community in southern Idaho.

The company owns municipal franchises entitling it to operate in twenty-nine municipalities in the States of Idaho and Oregon. Of these, in the opinion of counsel, three (including a Boise franchise) are without time limit. The franchises under which the company is operating in seven of these municipalities expire at various dates prior to January 1, 1947, but all the remainder of its franchises are for terms extending beyond that date. The company's franchises in general are satisfactory from a business standpoint and are free from burdensome restrictions.
